LETTER OF REFERENCE

To Whom It May Concern,

This letter is to confirm that **Desy Maharani** engaged with Ensonex Sdn. Bhd. as a **Software Developer Consultant** from **5 January 2026 to 15 September 2026**. Ensonex Sdn. Bhd. is an AI-powered influencer marketing platform company based in Cyberjaya, Malaysia.

During her engagement, Desy contributed extensively to the design, development, and deployment of the Ensonex platform — a full-stack AI-powered creator marketing system. Her key contributions included:

- **Full-stack development** of the Creator Portal and Marketer Portal, including authentication, dashboards, campaign management, and settings modules
- **AI Tagging System** — end-to-end pipeline build using AWS Bedrock, Lambda, GraphQL, and DynamoDB, including Confidence Score logic and Creator Style classification
- **Mobile UI/UX development** across multiple platform screens with dark/light mode theming and responsive design
- **AI Knowledge Base** — created and tested FAQ documentation feeding the AI chat system for Staff and Marketer portals
- **Technical documentation** — produced system architecture diagrams and onboarding tutorials

Desy demonstrated strong technical proficiency across front-end and back-end development, a sound understanding of AI systems integration, and the ability to deliver independently across multiple workstreams simultaneously. She was reliable, diligent, and consistently delivered quality outputs throughout her engagement.

We wish Desy every success in her future career and have no hesitation in recommending her to prospective employers.

Yours faithfully,

Angie Chung

CEO & Founder

Ensonex Sdn. Bhd.
